

### **Accommodations for Health-Related Conditions**

Upon written request the Board of Bar Examiners will consider accommodations for health-related conditions not otherwise covered under the South Dakota Board of Bar Examiners' Policy on Applicants with Disabilities.

An applicant requesting lactation accommodations must submit a request for accommodations in writing, provide medical documentation verifying breast feeding, and list the accommodations believed necessary with as much specificity as possible. Except in extraordinary circumstances, requests for lactation-related accommodations must be submitted at least four (4) weeks prior to the first day of the bar examination.
